

## FT-PBJ Automatic flatbed printing machine

### Basic information

**Name:** FT-PBJ Automatic flatbed printing machine

**Producer:** Shanghai FENGTAI Machine

**Year:**

**Reference number:**

### Opis Dodatkowy

According to market prospects and technological development, we developed this lithographic printing machine at the same time as cylinder printing machines. It uses modern technology, so it is easy to use and has very high printing accuracy. It is suitable for flexible printing of printed circuit boards, thermal transfer printing of silicone, printing of thick boards, etc. The entire machine is driven by a fully imported servo motor to ensure high precision, long life and stable operation. It uses a communication-type electrical control system to realize online error processing and a subsequent factory data management system.

### Stan techniczny maszyny

The machine is new.

### Serwis

We provide professional service of printing machines. Thanks to the in-depth knowledge of the printing industry with which we have been associated for over 20 years, we can offer comprehensive maintenance services.

### Technical data

Max. Sheet size	750mmx550mm
Min. Sheet size	350mmx270mm
Max. Print size	730mmx530mm
Sheet thickness	0.05-1.00 mm
Print speed	400-4000p/h
Screen frame size	800mmx800mm
Mass	1900kg
Power	5.5kw
