

FT800 Automatic Screen Printing Machine

Basic information

Name: FT800 Automatic Screen Printing Machine

Producer: Shanghai FENGTAI Machine

Year:

Reference number:

Opis Dodatkowy

Suitable for ceramics, paper stickers and electronics. Classic stop and rotate structure; automatic cylinder format stop ensures that printed parts can be delivered to the cylinder gripper accurately and with high accuracy; at the same time, the cylinder gripper and pull indicator are equipped with electrical components to monitor the status of printed parts in place, effectively reducing printing waste; Vacuum adsorption at the bottom of the infeed table, combined with the structure of pushing and pressing the paper on the table, to ensure accurate and smooth transfer of various materials; Dual cams adequately control the action of the squeegee and the ink retracting knife; squeegee Thanks to the pneumatic pressure maintenance device, the printed image is clearer and the ink layer is more uniform

Stan techniczny maszyny

The machine is new.

Serwis

We provide professional service of printing machines. Thanks to the in-depth knowledge of the printing industry with which we have been associated for over 20 years, we can offer comprehensive maintenance services.

Technical data

Max. Sheet size	800mmx550mm
Min. Sheet size	350mmx270mm / 270mmx270mm
Max. Print size	720mmx500mm
Sheet thickness	80(g/㎡)--350(g/㎡).
Print speed	400-4000p/h
Screen frame size	880mmx880mm
Mass	3350 kg
Power	7.5 kw
